

Healthy Eating Policy

As part of the Social, Personal and Health Education (SPHE) Programme, at Kilrickle National School we encourage the children to become more aware of the need for healthy food in their lunch boxes.

What people eat is known to be a key factor influencing health. Research indicates a strong link between diet and performance (e.g. a low sugar intake promotes concentration, lessens hyperactivity, protects teeth, and lessens the risk of Diabetes (Type 2). A low salt intake reduces the risk of heart disease in later life). It is the responsibility of parents and guardians to ensure that children have a healthy lunch at school daily.

To promote healthy eating habits in our school, we introduced a healthy eating policy starting from November, 2020.

Aims

- 1.To promote the personal development and well-being of the child
- 2.To promote the health of the child and provide a foundation for healthy living in all its aspects.

Objectives

- 1.To enable the child to appreciate the importance of good nutrition for growing and developing and staying healthy
- 2.To enable the child to accept some personal responsibility for making wise food choices and adopting a healthy, balanced diet.

Lunch is an important meal for school-going children. It should provide one third of their recommended daily allowance of nutrients without being high in fat, sugar or salt. **However, we cannot stress enough the importance of the children getting a good breakfast each morning before they come to school.** Breakfast/ lunch should also provide dietary fibre (roughage). All Classes are given ample time to eat their lunch either before or after their yard times.

The traditional packed lunch of milk and sandwiches is under attack from a range of convenience foods like crisps, sweets, biscuits, chocolate and soft drinks. Parents and teachers are concerned about this trend but some find it difficult to come up with popular healthy alternatives. We ask you to encourage a healthy lunch right from the start.

The following guide is designed to help you provide quick, appetising, and nutritious lunches for your children. Children are encouraged **not to share lunches** in school.
